

SC2 Pole Mount – 1.0m Deck Mounted
Installation Instructions

SC2-1 Kit Contents:

Round Base Casting

Pole Top Casting

4" pole x 1m

2 x Fixing packs:

4 x M6 Nylock Nuts	[60060]
4 x Nut Covers	[60068]
4 x M6 x 20 Bolts	[60621]
4 x M6 Nylon Washers	[60702]

Also Required:

4 x M8 Stainless Steel bolts, large washers and nuts to attach Pole to deck. Length to suit deck/arch/Pole top thickness.

Ø8.5mm Drill.

Ø6.5mm Drill.

Rubber mallet.

To fit castings to pole:

1. Fit castings onto pole ends. A rubber mallet may be needed to help lightly tap the castings to ensure they have been fitted squarely onto the pole. Ensure that the webs on the castings are aligned top and bottom.
2. On the castings identify the drill guide dimples and drill. Drill through the castings and pole.
3. Use the supplied fixings to secure the castings onto the pole. The nylon washers are to fit under the bolt heads to protect powder coat finish on the castings. Fully tighten all fixings.

To fit the SC2-1 Pole assembly to the deck:

1. Position the SC2-1 Pole assembly on your deck
2. Mark drilling points through the casting onto the deck. Using an Ø8.5m drill, drill through the deck.
3. Using some suitable length M8 bolts, nuts and large washers secure the SC2-1 Assembly to the deck and fully tighten all fixings.

Your radar will come supplied with relevant fixing bolts. Use these to fix the Radar to the top casting of the SC2-1 assembly and fully tighten.

SC2 Pole Mount – 3.0m / 4.0m Through Deck Mounted **Installation Instructions**

Please note that because of variation in possible tops for the SC2-3/4 pole system, the customer is required to specify the radar or satcom dome to be installed.

Below there are two sets of instruction. One for installing Radar, one for installing Satcom.
